

2025 Final Legislative Report

Oklahoma Lawmaker Voting Records and Summaries of Proposed and Passed Legislation Affecting Older Oklahomans

Compiled by Oklahoma Aging Partnership:

Oklahoma Alliance on Aging

Oklahoma Silver-Haired Legislature Alumni Association

Oklahoma State Council on Aging

August 2025

Editor's Note

We strive for 100% accuracy in these reports. Unfortunately, the first electronic distribution of this year's report, dated June 2025, contained many errors. This was partly the result of the editorial team depending too much on the new Artificial Intelligence (AI) technology's retrieval of names and votes without vigilant proofreading of what the AI produced.

We apologize.

Oklahoma Aging Partnership

2025 Final Legislative Report on Aging Legislation

The Oklahoma Aging Partnership (OAP) is a non-partisan coalition comprised of the Oklahoma Alliance on Aging, the Oklahoma Silver-Haired Legislature Alumni Association, and the Oklahoma State Council on Aging.

This report reflects a consensus of the OAP on key measures affecting older Oklahomans. It contains a record of Legislator votes on the bills that clearly impacted older Oklahomans in the 2025 legislative session. It also is a brief summary of bills that would have impacted older Oklahomans if the bills had been enacted. The selection of bills for inclusion in this report was based on each bill's critical importance to older Oklahomans.

The OAP strongly believes voters should be informed on issues affecting older Oklahomans.

This report is for informational purposes only and does not reflect an endorsement or censure of any Legislator on the basis of his or her voting record. The selected votes reflect the bills that the OAP provided in our First and Second Letters to Legislators. The report does not highlight matters such as a Legislator's work in committees and constituent services. Additionally, the OAP Final Legislative Report does not reflect the overall qualifications a Legislator has for public office and should not be the sole determinate in evaluating a Legislator. There are different views and positions on many bills; therefore, the OAP encourages the reader to contact Legislators directly to increase the reader's understanding of a particular bill and reasons for a Legislator's votes.

2025 Oklahoma Legislative Session At-A-Glance

The first session of the 60th Oklahoma Legislature convened on Monday, February 3, and adjourned on Friday, May 30, 2025. There were approximately 3,200 bills and resolutions filed for consideration during the 2025 legislative session.

On June 13, 2025, the Oklahoma Board of Equalization's report certified that the General Revenue Fund for Legislative Appropriations 2025 session for Fiscal Year 2026, totaled \$7,754,273,650. The Legislature created an online portal to provide more transparency for the Fiscal Year 2026 budgeting process. The OAP found the portal to be difficult to navigate and did not provide line-item information.

Due to the state's Constitutional Reserve Fund (\$38,077,462 as of June, 2025) and the Revenue Stabilization Fund (\$238,077,462 as of June, 2025), the Governor and Legislature passed a state personal income tax reduction, House Bill 2764, that includes a trigger mechanism to allow the state personal income tax to eventually erode to zero. The Reserve Funds were projected to be tapped into to make up any decrease in the General Revenue Fund. NOTE: In the 2024 Legislative Session, the Legislature voted to eliminate the 4.5% state portion of sales tax on specified grocery purchases; therefore, the state is currently experiencing reduced revenue sources.

Thankfully, in the 2024 legislative session, joint committees on appropriations and budget discussions did not lead to further Oklahoma personal income tax reductions which some Legislators and the Governor supported. In the 2025 legislative session, the joint committees on appropriations and budget did not identify how the lost revenue from a state personal income tax reduction would be provided except for using some of the state's financial reserves.

Consequently, the OAP took a public position to oppose House Bill 2764, because the OAP thought it was fiscally irresponsible. The OAP was especially concerned because the threat of reductions in federal funding is projected to include the elimination of \$80 billion in federal appropriations to the states for Medicaid. Many vulnerable older Oklahomans depend upon the federal dollars that are appropriated to states. The states use the federal dollars along with state appropriated funding for services and programs. The OAP believes that the reduction of these federal dollars will eventually be hurtful to older Oklahomans.

On February 25, the OAP published our First Letter to Legislators for the 2025 Session. The letter contained many bills that the OAP supported and three bills that the OAP opposed. On April 2, the OAP published the Second Letter to Legislators because some of the bills in the first letter had died or became dormant. Also, an additional bill surfaced that the OAP opposed. This report contains information about many of the bills.

First Letter to Legislators

February 25, 2025

Dear Legislator,

The Oklahoma Aging Partnership (OAP) is a non-partisan coalition comprised of the Oklahoma Alliance on Aging, the Oklahoma Silver-Haired Legislature Alumni Association and the Oklahoma State Council on Aging and Adult Protective Services. Collectively, the OAP has identified key pieces of proposed legislation that will positively or negatively impact older Oklahomans. The collective decision to support or oppose legislation was made based on the current version of the bills as of February 24, 2025. We will appreciate your support of the Aging Partnership's positions and welcome your questions.

OAP Supports

SB 961 (Sen. David Bullard and Rep. Danny Williams) – Requires a county clerk to notify a deed holder when a new deed is filed, helping protect older Oklahomans from fraudulent property transfers. If the deed holder contests the filing, the bill allows referral to the district attorney for investigation of possible deed fraud.

HB 1566 (Rep. Collin Duel) – Creates Neil's Law, which establishes a right to bring civil action for incapacitated persons and vulnerable adults. The bill allows such persons to pursue claims against people who abuse, neglect, or exploit them.

HB 2262 (Rep. Nicole Miller and Sen. Brenda Stanley) – Provides that when facilities market themselves as providing Special Care under the Alzheimer's Dementia and Other Forms of Dementia Special Care Disclosure Act, and it is found that "special care" is not being provided, the case can be referred to the Attorney General's Office to investigate. If found guilty, the facility would be liable for fraudulent advertising and sales practices. Additionally, the Oklahoma State Department of Health may cite the facility if two or more discrepancies in services are found from the care or services described in the disclosure.

HB 1472 (Rep. Meloyde Blancett) – Adds a misdemeanor and/or penalties if employees of a long-term care facility misrepresent the facility as providing special services for Memory Care when no special services are provided.

HB 2834 (Rep. Ty Burns) – Expands Medicaid coverage for in-home physical, occupational and speech therapy.

SB 199 (Sen. Jo Anna Dossett) – Requires that a person must attend training before being appointed guardian for a person with dementia. The Court may waive this requirement.

SB 761 (Sen. Julie McIntosh) – Creates the Lori Brand Patient Bill of Rights Act of 2025. The bill lists the rights for a patient seeking treatment and provides for the responsibilities of patients seeking treatment. The bill includes the right to have an advance directive attorney for health care. **HB 1600** – Same bill and authored by Rep. Emily Gise. & Sen. Hines.

SB 804 (Sen. Adam Pugh and Rep. Preston Stinson) - requires an assisted living center in which there are documented repeat deficiencies regarding medications, in addition to or as an alternative to any penalties, to employ the consultant services of a licensed pharmacist or a licensed Registered Nurse.

SB 1083 (Sen. Darrell Weaver) - Creates a structured regulatory framework for digital asset kiosks, also known as crypto currency ATMS, enhancing consumer protection, preventing fraud, and ensuring that operators comply with set regulations. The bill is an AARP Oklahoma request bill, designed to protect Oklahomans from crypto currency scams.

OAP Opposes

SB 896 (Sen. Micheal Bergstrom and Rep. Gerrid Kendrix) – Provides that any permanent rule promulgated after the effective date shall terminate one (1) year after it takes effect. Each rule may be renewed by the Legislature. Agencies may request renewal of a rule within 4-6 months of the rule’s expiration date. The bill requires expiration of all permanent rules of 20% of state agencies each year. The agency must demonstrate why renewal of the rule is necessary.

The Oklahoma Aging Partnership’s volunteer organizations have tirelessly worked to protect the well-being and safety of vulnerable older Oklahomans. Our efforts have sometimes resulted in permanent rules being promulgated. To be required to repeat an ongoing rule termination process would be expensive in State agency staff time, Legislators’ hours, and State dollars. This is not fiscally sound. Periodic review of existing rules would be more cost-effective, and less labor-intensive, than automatic expiration of every rule. Additionally, many laws enacted by the Legislature require rules to be promulgated by a designated entity. Our position is that this bill is counterproductive.

SB 904 (Sen. Paul Rosino and Rep. Preston Stinson) - Modifies the criteria for state reimbursement payments to contracted Medicaid Nursing Homes.

1. Changes criteria for quality incentive payments to contracted Medicaid Nursing Homes. The measure provides that facilities may earn payment from the Oklahoma Health Care Authority’s “quality” incentive reimbursement rate, even if they only achieve a “two star” rating in a Federal five-star rating system. The current incentive plan has never had an independent, qualified, on-site audit conducted despite requests by the existing advisory committee.

2. Directs OHCA to add a case-mix component into the payment rate methodology, changing the current methodology which requires that 70% of new money to be allocated based on facilities **actual** direct-care staffing.
This could result in nursing homes being paid a higher rate if the facilities make their residents sicker through poor care!
3. This bill is an attempt by certain nursing home owners to continue staffing at levels below what Oklahoma State Statute now requires and receive a greater share of the reimbursement dollars. The bill decreases the incentive to staff at a level which would enable the facility to adequately care for the residents.

Research shows that the quality of care nursing home residents receive is driven by the level of direct care staffing. If this bill passes, it will divert money away from those nursing homes which provide more direct care staff. Actual Nursing home payroll data shows that many Oklahoma nursing homes continue to staff below state statute requirements, which reduces the level of care provided to the residents. Please don't reward them for poor care. Our position is to keep the current reimbursement methodology in statute.

SB1118 (Sen. Brent Howard and Rep. John Pfeiffer) - requires a Justice of the Supreme Court, a Judge of the Court of Criminal Appeals or of the Court of Civil Appeals, or a district or associate district court judge to retire when he or she reaches 75 years of age. This bill appears to enshrine Age Discrimination in State statute, disregarding its prohibition elsewhere in law. Age 75 is an arbitrary choice. This bill contradicts what the Legislature is doing to provide solutions to the workforce shortage in Oklahoma.

Outcome of OAP'S First Letter to Legislators

OAP supported these bills, which either did not meet the initial legislative deadlines or did not achieve final passage:

SB 961 (Sen. David Bullard and Rep. Danny Williams) – Required a county clerk to notify a deed holder when a new deed is filed, helping protect older Oklahomans from fraudulent property transfers. If the deed holder contested the filing, the bill allowed referral to the district attorney for investigation of possible deed theft. (Two other bills addressing deed theft did become law.)

HB 1472 (Rep. Meloyde Blancett) – Added a misdemeanor and/or penalties if employees of a long-term care facility misrepresented the facility as providing special services for Memory Care when no special services were provided.

HB 2834 (Rep. Ty Burns and Sen. Tom Woods) – Expanded Medicaid coverage for in-home physical, occupational and speech therapy. The OAP's position was that this expanded therapy is critical for vulnerable older Oklahomans receiving care in their homes.

SB 761 (Sen. Julie McIntosh and Rep. Emily Gise) – Created the Lori Brand Patient Bill of Rights Act of 2025. The bill listed the rights and provided certain responsibilities of patients seeking treatment. The same bill intent and content was created in another bill by the same authors, **HB 1600**, which was listed in the OAP Second Legislative Letter and is now law.

OAP opposed these bills which did not advance:

SB 896 (Sen. Micheal Bergstrom and Rep. Gerrid Kendrix) – Changed how agency administrative rules are amended, eliminated or created. This bill would have hurt older Oklahomans due to the many rules which the OAP has championed over the years and are now contained in Oklahoma's administrative code. Thankfully, this bill did not progress.

SB 904 (Sen. Paul Rosino and Rep. Preston Stinson) – Modified the state reimbursement system for payments to contracted Medicaid Nursing Homes. The OAP's perspective was represented in a meeting in which all stakeholders were invited to discuss the bill. We appreciate Senator Rosino for not advancing the bill.

SB 1118 (Sen. Brent Howard and Rep. John Pfeiffer) – Required judges of certain state courts, including Oklahoma's Supreme Court, to retire when they reached age 75. Thankfully, this discriminatory bill died. Still, other bills that will change how Oklahoma's future judges are selected did pass the Legislature and were signed by the Governor.

Oklahoma Alliance on Aging
Oklahoma Silver Haired Legislature Alumni Association
Oklahoma State Council on Aging and Adult Protective Services

Second Letter to Legislators

April 2, 2025

Dear Legislator,

The Oklahoma Aging Partnership (OAP) is a non-partisan coalition comprised of the Oklahoma Alliance on Aging, the Oklahoma Silver-Haired Legislature Alumni Association and the Oklahoma State Council on Aging and Adult Protective Services. Collectively, the OAP has identified key pieces of proposed legislation that will positively or negatively impact older Oklahomans. The collective decision to support or oppose legislation was made based on the current version of the bills as of March 31, 2025. We will appreciate your support of the Aging Partnership's positions and welcome your questions.

OAP Supports

HB 1024 – (Rep. Steve Bashore and Sen. Julie Daniels) – Eliminates the 6% markup on retail goods which has been required in State law since the 1940s. This bill includes eliminating the markup on gas and diesel fuel.

SB 638 – (Sen. Julie Daniels and Rep. Steve Bashore) – The bill is essentially the same as HB 1024 but does not include gas and diesel fuel.

HB 1566 (Rep. Collin Duel and Sen. Darrell Weaver) – Creates Neil's Law, which establishes a right to bring civil action for incapacitated persons and vulnerable adults. The bill allows such persons to pursue claims against people who abuse, neglect, or exploit them.

HB 2194 (Rep. Max Wolfley and Sen. David Bullard) – Increases the individual income tax exemption for retirement income from \$10,000 to \$20,000.

HB 2262 (Rep. Nicole Miller and Sen. Brenda Stanley) – The bill requires any referral agency provide the facility's Alzheimer-Disclosure form to a representative of a person with dementia who is considering placement within the facility. Each facility must display a poster in the facility that explains how to file a complaint should the facility fail to provide a copy of the disclosure form.

HB 2834 (Rep. Ty Burns and Sen. Tom Woods) – Expands Medicaid coverage for in-home physical, occupational and speech therapy.

HB 1600 (Rep. Emily Gise and Sen. Kelly Hines) – Creates the Lori Brand Patient Bill of Rights Act of 2025. The bill lists the rights that each patient treated in an Oklahoma hospital must be granted.

SB 804 (Sen. Adam Pugh and Rep. Preston Stinson) – Requires the Commissioner of Health to promulgate rules for Assisted Living facilities that include Minimum Standards for resident care, including standards pertaining to medical care and administration of Medications and review of medications monthly by a pharmacist or a Registered Nurse.

SB 877 (Sen. David Bullard and Rep. Cody Maynard) – Requires the Oklahoma Real Estate Commission to establish standards for real estate brokers to complete continuing education to recognize the signs of deed theft. The bill also requires that brokers give homebuyers information on the signs and risks of deed theft as part of the closing process.

SB 925 (Sen. Warren Hamilton and Rep. Mike Osburn) – Allows a victim of title theft to file a notice alleging fraudulent conveyance of real property with a county clerk. A person found guilty of falsifying a document pertaining to real property with the intent to deceive, defraud, or unlawfully transfer ownership of such property shall be guilty of a felony. Penalties can include fines up to \$5,000 and imprisonment for up to 10 years.

SB 1083 (Sen. Darrell Weaver and Rep. Mark Lepak) - Creates a structured regulatory framework for digital asset kiosks, also known as crypto currency ATMs, enhancing consumer protection, preventing fraud, and ensuring that operators comply with set regulations. The bill is an AARP Oklahoma request bill, designed to protect Oklahomans from crypto currency scams.

SB 1114 – (Sen. Tom Woods and Rep. Chris Kannady) – Provides for Ad Valorem Tax Relief for those qualifying Oklahomans, 65 years of age and older, if they meet the requirements. If passed, a State Question will be placed on a state ballot to bring to the vote of the people.

OAP OPPOSES

HB 1221 - SAFE ACT (Rep. Kevin West and Sen. Avery Frix) – Creates the Safe Accounts for Federal Expenditures (SAFE Act).

The bill establishes reporting requirements to the Legislature and Governor for state agencies that receive federal funds through a competitive grant, block grant or direct payment. The SAFE Act places those funds into State accounts. Temporary funding increases in federal programs currently managed by state agencies and a few other federal programs would be exempt from the SAFE Act.

The SAFE Act would require Oklahoma state agencies to obtain legislative approval through concurrent resolution BEFORE accessing specific categories of federal funds. It would require Legislative approval before the agencies could expend the funds. Would this require Special Legislative Sessions each year when funding arrives at the beginning of the Federal Fiscal Year October 1st?

The OAP also is concerned about the impact of reduced Federal expenditures and reorganizations of the federal agencies which fund many of Oklahoma's existing state programs. These programs could eventually fall under a block grant or direct payment process. This process would be difficult for those who provide services to older Oklahomans, and many providers would discontinue their services. This would significantly impact older Oklahomans who require the services.

The Oklahoma Aging Partnership Organizations Thank You!

The OAP member organizations wish to thank the Senators who did not advance the three bills we opposed in our First Letter to Legislators this session. If these three bills had passed the Senate Chamber, there would have been serious consequences for older Oklahomans.

We also want to thank all the Senators and Representatives who readily provide us access to you and to your Executive Assistants and Legislative Assistants. We appreciate your being open to discussing the issues and bills with us.

Outcome of OAP’S Second Letter to Legislators

The OAP supported these bills which were signed by the Governor:

HB 2262 (Rep. Nicole Miller and Sen. Brenda Stanley) – Requires any long-term care referral agency/business to display a poster that explains how to file a complaint, should the facility fail to provide a copy of a recommended facility’s Alzheimer Special Care Disclosure form. The disclosure form is required so that persons seeking care in “memory care” facilities understand the special, additional services which the facility provides and for which the facility charges.

SB 638 (Sen. Julie Daniels and Rep. Steve Bashore) – Eliminates the 6% markup on retail goods as well as gas and diesel fuel.

The OAP supported these bills which became law *without* the Governor’s Signature:

HB 1566 (Rep. Collin Duel and Sen. Darrell Weaver) – Creates Neil’s Law, which establishes a right for incapacitated persons and vulnerable adults to bring civil action. The bill allows such persons to pursue claims against people who abuse, neglect, or exploit them. The OAP unsuccessfully attempted to pass the same bill in the 2024 Legislative Session. We are gratified that there now is law to support incapacitated and vulnerable adults.

HB 1600 (Rep. Emily Gise and Sen. Kelly Hines) – Creates the Lori Brand Patient Bill of Rights Act of 2025. The bill lists the rights that each patient treated in an Oklahoma hospital must be granted. The OAP applauds the passage of this bill.

SB 877 (Sen. David Bullard and Rep. Cody Maynard) – Requires the Oklahoma Real Estate Commission to establish standards for real estate brokers to complete continuing education to recognize the signs of deed theft.

SB 925 (Sen. Warren Hamilton and Rep. Mike Osburn) – Allows a victim of title theft to file a notice alleging fraudulent conveyance of real property with a county clerk. The bill provides for sentences of those found guilty.

Deed/title theft can be a problem for older Oklahomans when a family member or other person fraudulently attempts to change the title of an older person’s home to the perpetrator’s name. If successful, an older Oklahoman can find that he or she no longer has a home because the perpetrator has sold the home or because the transfer of ownership without payment will render the victim ineligible for Long-Term Care Medicaid.

The OAP supported these bills which were vetoed by the Governor, overridden by the Legislature, and became law:

SB 804 (Sen. Adam Pugh and Rep. Preston Stinson) – Requires an assisted living center in which there are documented repeat deficiencies regarding medications to employ the consultant services of a licensed pharmacist or a licensed registered nurse. The consultancy services would be in addition to or an alternative to any penalties. The OAP applauds this legislative override because of the need for the state to have more scrutiny over assisted living centers which currently operate under little regulation. These centers are increasingly admitting older Oklahomans who require extensive nursing care rather than simple assistance.

SB 1083 (Sen. Darrell Weaver and Rep. Mark Lepak) – Provides a structured regulatory framework for digital asset kiosks, also known as cryptocurrency ATMs. According to AARP, Oklahomans' losses from cryptocurrency-related scams, which include ATM scams, saw a significant jump from \$25,031,191 to \$37,752,198 from 2023 to 2024. That is almost a 51% increase. Often, older Oklahomans are the target of these scams. The OAP's position is that this industry must have increased regulation.

The OAP supported these bills which did not meet legislative deadlines and are now dormant:

HB 1024 (Rep. Steve Bashore and Sen. Julie Daniels) – Eliminated the 6% mark-up on retail goods which had been required in state law since the 1940s. (**SB 638**, by the same authors, included the same content and was passed by the Legislature.)

HB 2194 (Rep. Max Wolfley and Sen. David Bullard) – Increased the individual income tax exemption for retirement income from \$10,000 to \$20,000. Due to other tax reduction-based bills being considered, the Legislature chose not to advance this bill.

SB 1114 (Sen. Tom Woods and Rep. Chris Kannady) – Provided for Ad-Valorem Tax Relief for those qualifying Oklahomans 65 years of age and older, if they met the requirements. Due to other tax reductions being considered, the Legislature chose not to advance this bill.

The OAP opposed this bill which is now dormant:

SB 1221 (Rep. Kevin West and Sen. Avery Frix) – Created the Safe Accounts for Federal Expenditures Act (SAFE). The bill would have placed federal funds received by State agencies at risk by requiring the funds to be placed in a state holding account. Before an agency would be able to use the funds, the agency would be required to jump through legislative hoops that the bill created. The Legislature already has a LOFT committee which scrutinizes state expenditures. This bill would just have added an additional layer of scrutiny.
